INVITATION TO THE PRESENTATION ABOUT THE WORK-PLACEMENT

Scheduling on the Right Track - working for Anexia

Benjamin Hofer | University of Klagenfurt

Chaired by Roswitha Rissner | Department of Mathematics

Tuesday, 17 March 2026 | 09:45–10:30

HS 8

ABSTRACT

In my internship at Anexia, I worked on several projects for a major railway provider, where I learned the basics of collaborative programming, large-scale optimization, and unit testing. I will also share insights into the team culture, the Christmas party, and a restructuring of the company that happened while I was there. Finally, I will reflect on my personal learnings about time management, organization, and how to structure a successful workday.

We hope to see you there!
